

Summer Camp 2021 Recap

A summer of laughs, games, new experiences and friendships.

We shared another great summer of camp with participants, family and staff... and oh, how wonderful it was to see new and returning faces in-person! We also welcomed visitors and volunteer photographers who had the opportunity to see camp in action and get an inside glimpse at "a day at Aaron's Acres".

Each of the 3 camp sessions had dedicated themed days, special visitors, a trip to the stables, time in the pool, games and activities.

Feature Site Supervisor: Eric

"I joined Aaron's Acres the summer of 2011 as a Camp Counselor at the Lancaster campus. A few years later I worked as a Group Leader and now a Site Supervisor. I have loved each role I have taken on at camp but the best part of camp is seeing the campers smile.

Seeing their excitement with all of the different games and activities makes the experience so rewarding. When I am not at camp I work at East Petersburg Elementary School in the Hempfield School District as a Life Skills Teacher. I received my education degree from West Chester University in 2015. Aaron's Acres has been an amazing organization to work with--their passion for creating a summer camp for all individuals is unmatched. I look forward to continuing as a Site Supervisor this year and I cannot wait to see all of the campers!"

Eric's thoughts on camp this summer:

Eric was excited to see everyone in-person again this summer! He enjoyed seeing the campers smiling faces and interactions, fun in the pool and time at the horse stables.

SCHOOL YEAR 2021-2022

Applications will be available soon! Follow Aaron's Acres on social media for more information on when you can apply to this year's School Year Program!

Check out this week's blog post with suggestions on preparing for "back to school"!
