

SUMMER CAMP IS AROUND THE CORNER AND WE NEED YOUR HELP

Dear friends of Aaron's Acres,

We need you! We can't do camp without your help!

Our summer camp program is almost here, and we can't wait for the very first day! Our program staff will be meeting soon and beginning to plan for all that will take place during the three 2-week sessions of camp!

The number of children that we can accept is driven by the number of staff that we can hire, as we are committed to our 1:1 or 1:2 staff to child ratio.

A low staff to child ratio ensures that we can meet each participant's needs immediately and appropriately. Parents often share that they can breathe easier knowing that a counselor is assigned to only their child, assisting him/her with whatever is needed and making sure that their child is always safe and comfortable. At Aaron's Acres, we will never compromise on this type of attention and care.

We are asking you to share our need for staff with others in the community -- your colleagues, co-workers, family, and friends. You do not

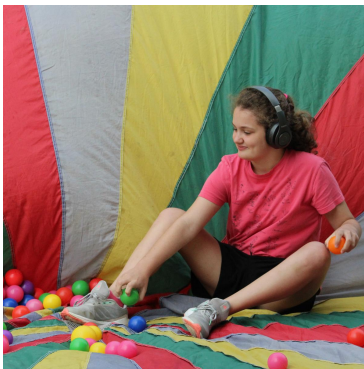

need to have experience working with people who have varying abilities and disabilities to join our team. The only requirements are the following: individuals must be at least 18 years old, and they should have an interest in working with this population. Counselors are paid and can also gain college credits, depending upon the school's curriculum. Ongoing support and supervision are provided by our professional staff during our programs. Staff share with us that they never feel alone and always receive support from others when it is needed. Staff also report that this experience is viewed very positively by prospective employers when included on their resumes.

We never want to say no to a family that is interested in registering their child for our programs. **With your help, we can say yes** to more families and provide a meaningful experience to children and young adults with disabilities for the summer of 2024.

Sincerely,

Risa Paskoff
