

## **Help Us Welcome Our New Program Coordinator**

**Madison Heider**

Aaron's Acres is extremely excited to announce that we have added a new position to our Administrative Team, a Program Coordinator. We have hired Madison Heider to fill this position and are beyond thrilled to have her join us! Prior to coming to us in this position Madison was an Area Supervisor at Keystone Human Services, working with adults with disabilities. She has a Bachelor's Degree in Rehabilitation and Human Services and a Master's Degree in Special Education. Madison began with us over 8 years ago as a Counselor, working with our camp program. Her ability to connect with the campers, regardless of their abilities and challenges, was noteworthy right from the start. She continued to work with us adding sessions of camp and then began working with our monthly school year program over the years. As she gained more experience in working with people of all abilities and disabilities, she became a Group Leader and then a Site Supervisor. In all of her interactions with the participants, she has always demonstrated compassion, patience and understanding. Her ability to encourage each participant to do his/her best while knowing when to support them has always been a strength of hers. Madison's commitment to our organization and

her willingness to help us in whatever way was needed was consistently evident.

As our Administrative Team realized that we wanted to expand all of our existing programs and introduce programs to older participants, we knew that Madison was the perfect candidate to make this happen. Under the supervision of Elaine Burnett, our Program Director, Madison will continue to oversee the Chuckie Magee Flag Football Program, our Adult Sports Program in the spring, Cooking and Art Classes as well as be involved with our monthly school year programs. In addition, she will be responsible for other programs for our older participants, including our Kindness Konnection program in which they will engage in community service projects. Other outings will be scheduled for this age group as our goal is to meet the tremendous need for meaningful programs for those who graduate from high school. In all of our programs, developing and reinforcing socialization and communication skills will be the priority as the participants engage in a variety of age-appropriate activities.

At Aaron's Acres, we are committed to meeting the needs of individuals with disabilities along with their families. For 26 years, we have done this, and we look forward to the next 26 years and more! With Madison joining our team, we are even stronger in our commitment and our work to meet this goal.

---

## How You Can Make A Difference At Aaron's Acres!

We'd like to share some ways that you can partner with us at Aaron's Acres and make a difference in the lives of young people with disabilities. We rely on the support of our community to help make our programs and activities possible. There are many opportunities to work together throughout the year and we look forward to connecting with you!
